Pune, Maharashtra shreyashsule22@gmail.com [915-623-5990](tel:915-623-5990) [GeeksforGeeks](#) [LinkedIn](#) [GitHub](#) [Credly](#)

Summary

Results-driven **Fullstack AI Engineer** with strong foundations in **Python**, **Next.js**, **Node.js**, and **LLMs**. Proven ability to build **agentic systems**, implement structured memory, and design **REST APIs**. Adept at applying **Prompt Engineering**, **RAG Concepts**, and Agile development to **minimize hallucinations** and deliver reliable, context-aware AI applications within fast-paced, cross-functional teams.

Skills

AI & LLMs: Prompt Engineering, RAG Concepts, Agentic Workflows, Structured Outputs, OpenAI APIs

Frontend & Backend: Next.js, React.js, Node.js, Express.js, Python, REST APIs, State Management

Databases & DevOps: PostgreSQL, MongoDB, Redis, Docker, Linux, AWS, CI/CD Pipelines

Core Practices: Object-Oriented Programming, Data Structures & Algorithms, Software Design Principles

Experience

Cloud / DevOps Intern | **Teleglobal International** – Pune Jan 2026 – Present

- Took complete ownership of **CI/CD pipelines** on **AWS**, using **Linux** and **Docker** tools to configure robust microservices, ensuring a highly scalable architecture and completely stable performance for all client applications.
- Demonstrated outstanding **problem-solving ability** to rapidly adapt and master new AI deployment tools quickly.
- Learned and rigorously applied **AI evaluation frameworks** to ensure complete response reliability and security.
- Created automated unit tests and resolved software defects leveraging **Git** version control systems flawlessly.

DevOps Intern | **Enacton Technologies** – Pune (Hybrid) Sep 2025 – Jan 2026

- Incorporated feedback during code reviews to continuously develop clean, maintainable, scalable, and well-documented robust code, managing complex **PostgreSQL** databases and solid **Node.js REST APIs** to support workflows.
- Contributed to front-end **State Management** technical design decisions using **React.js** to perfectly enhance UI.
- Demonstrated exceptional debugging and troubleshooting abilities to entirely resolve complex backend API bugs.
- Collaborated with developers to broadly support real-time **Event-driven architectures** resolving deep failures.

Software Development Engineer Intern | **Soluxction Space LLP** – Pune Jan 2025 – Mar 2025

- Supported AI applications by consuming **RESTful APIs** on **AWS**, collaborating with top diverse **cross-functional teams** to design prompt architectures that **minimize hallucinations** and improve response reliability flawlessly.
- Researched and implemented solid **RAG Concepts** to completely evaluate diverse internal AI product capabilities.
- Supported critical testing processes by implementing advanced **guardrails and validation layers** very securely.
- Demonstrated strong analytical and problem-solving abilities to safely produce verifiable **structured outputs**.

Projects

VedaAI — AI-Powered Assignment Generator Next.js, Express.js, MongoDB, WebSockets

- Built a full-stack platform using **Next.js**, and **MongoDB**, incorporating **Prompt Engineering** and **Context Windows** to safely optimize workflows and reduce generative AI assignment creation times utilizing vital **OpenAI APIs**.
- Architected **Real-time AI applications** seamlessly by designing and integrating robust **Agentic Workflows** safely.
- Implemented streaming LLM applications seamlessly using key **WebSockets**, **Redis**, and efficient **State Management**.

Network Routing Simulator Python, NetworkX, Matplotlib

- Applied **Object-Oriented Programming** principles by building a **Python** simulator with **NetworkX**, enabling visual analysis of packet routing across distributed networks to optimize robust software application architecture.
- Modeled **Data Structures & Algorithms** perfectly to fully evaluate complex **software design principles** reliably.
- Simulated real-world network failure scenarios to completely evaluate complex routing architecture flawlessly.

Education

Savitribai Phule Pune University — BE in Information Technology (2026) 9.25/10

Certifications & Activities

Certifications

- Introduction to Linux (LFS101x) – Linux Foundation
- AWS Certified Cloud Practitioner (CLF-C02) – Amazon Web Services
- **Networking Basics** – Cisco Networking Academy
- Getting Started with Artificial Intelligence – IBM SkillsBuild
- **TataStrive CyberShiksha** (CEH-equivalent) – TCS Ion

Co-curricular Activities

- Technical Co-ordinator (ITSA)
- IBM SkillsBuild Top 10
- Avishkar 2024 RunnerUp
- SIH 2024 Institute Winner
- Google AI Student Ambassador
