Summary

Results-driven **DevOps Engineer** with strong foundations in cloud infrastructure, deployment automation, and system reliability on **AWS**. Proven ability to build impactful, AI-driven solutions by supporting **AI/LLM infrastructure needs**. Adept at managing **IAM** user management, deploying secure **Linux-based environments**, and utilizing **Terraform**, **Ansible**, and **Docker** to resolve real-world problems and streamline **HIPAA** and **SOC 2** compliance.

Skills

Cloud & Infrastructure: AWS ECS, EC2, S3, IAM, VPC, ALB, CloudWatch, ECR, Lambda

DevOps & CI/CD: GitHub Actions, Jenkins, Docker, Ansible, Infrastructure as Code

Networking & Sec: Subnets, Security Groups, Security Audits, Compliance Standards

Scripting & OS: Python, Bash, Linux Environments (Ubuntu), System Reliability

Experience

Cloud / DevOps Intern | **Teleglobal International** – Pune Jan 2026 – April 2026

- Maintained secure, scalable infrastructure on **AWS** by deploying **Docker** services to **ECS**, utilizing **CloudWatch** to monitor infrastructure performance and **system reliability** to resolve real-world problems for our clients.
- Supported **deployment automation** & active system reliability improvements by troubleshooting **GitHub Actions**.
- Participated in internal **security audits** and fixes to broadly support adherence to **HIPAA** and **SOC 2** guidelines.
- Assisted with **IAM** user management including **role assignments** and access provisioning for core cloud platforms.

DevOps Intern | **Enacton Technologies** – Surat Sep 2025 – Jan 2026

- Supported networking operations for **VPCs**, **subnets**, and **ALB routing** by using **Ansible** as infrastructure as code, writing **Python scripts** to automate infrastructure tasks to optimize platform performance highly effectively.
- Wrote and maintained advanced **shell scripting** in **Bash** to thoroughly automate operational infrastructure tasks.
- Maintained exceptionally secure **Linux-based environments** and contributed to **root cause analysis** documentation.
- Collaborated with engineering teams to broadly support deployment workflows configuring **EC2** and **S3** resources.

Software Development Engineer Intern | **Soluxction Space LLP** – Pune Jan 2025 – Mar 2025

- Troubleshoot system issues across environments by managing **Jenkins CI/CD pipelines**, collaborating closely with key engineering teams to support software deployment workflows and contribute to reliability improvements.
- Accelerated **Python** application deployments by configuring core **ECR** and **Lambda** to quickly resolve all failures.
- Supported basic administration tasks by maintaining IAM role policies and managing **security groups** effectively.
- Assisted in implementing **cloud security best practices** and governance controls by monitoring VPC environments.

Projects

Linux Security Audit Utility (linux-secsan) Python, Linux, Security Automation

- Assisted in implementing **cloud security best practices** by developing a **Python** auditing tool to evaluate server vulnerability management, identifying risky Linux configurations to assure robust and continuous compliance.
- Accelerated infrastructure **troubleshooting** workflows by designing an automated servers security scoring engine.
- Participated in internal **security audits** by gathering evidence and reviewing IT configurations for compliance.

VedaAI — AI-Powered Assignment Generator Next.js, Express.js, MongoDB, WebSockets

- Supported **AI/LLM infrastructure needs** in collaboration with engineering teams by architecting a full-stack platform using Next.js, and MongoDB, streamlining workflows to reduce generative AI assignment creation times.
- Enabled reliable **cloud-based application deployment** by integrating multi-tenant IT architectures seamlessly.
- Architected scalable pipelines using key **REST APIs** and rapid database operations, reducing wait times by 60%.

Education

Savitribai Phule Pune University — BE in Information Technology (2026) 9.25/10

Certifications & Activities

Certifications

- Introduction to Linux (LFS101x) – Linux Foundation
- AWS Certified Cloud Practitioner (CLF-C02) – Amazon Web Services
- **Networking Basics** – Cisco Networking Academy
- Getting Started with Artificial Intelligence – IBM SkillsBuild
- **TataStrive** CyberShiksha (CEH-equivalent) – TCS Ion

Co-curricular Activities

- Technical Co-ordinator (ITSA)
- IBM SkillsBuild Top 10
- Avishkar 2024 RunnerUp
- SIH 2024 Institute Winner
- Google AI Student Ambassador
